the Gainsborough
Home Collection
is designed for
impressive style
and functionality

Founded in 1967, Gainsborough offers a comprehensive range of levers and decorative door handles, security products, entrance handle sets and complementary accessories.

Designed for impressive style and functionality, the Gainsborough Home Collection is ideal for new homes and renovations.

High quality electrophoretic and electroplated finishes are used for appeal and durability – full details of guarantees by product are covered within this brochure.

Gainsborough places emphasis on the design and manufacture of exciting new products to meet the needs of today's decorating and security trends.

The special keying facilities will accommodate the most complex of keying requirements, from master keyed to great grand master keyed systems.

Gainsborough is committed to producing the finest quality products, having renewed its certification under the ISO 9001:2000

Quality Management System.

Trilock '3 in 1' Security

Lockset, deadbolt and passage functions all locked into one set.

Lockset with safety

Pressing the button on the inside of the door engages the Trilock lockset mode. This locks the door from the outside, however it is safe to exit without a key in an emergency by simply turning the inside knob or lever.

Deadbolt security

Trilock houses a key-operated double cylinder deadbolt, with a sturdy 20mm throw, to keep possessions and valuables safe whilst the home is unoccupied. (Single cylinder version features inside turn-button.)

Passage set convenience

When Trilock is unlocked and unsnibbed, it operates as a standard passage set, allowing free access in or out of the home.

Each design within the Trilock Traditional and Trilock Contemporary Series is available in Double Cylinder, Single Cylinder and Dummy versions, as detailed below:

Double Cylinder:

Key from either side will lock or unlock deadbolt.*

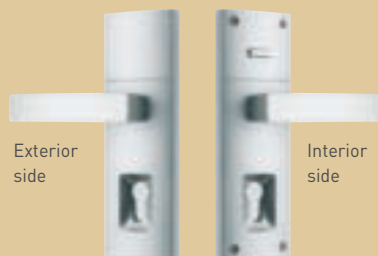

Single Cylinder:

Key from outside or turn-button from inside will lock or unlock deadbolt.*

Dummy Set:

A non-operational handle set for the fixed side of a double door.

* Also features other functions: • Push-button lockset mode • Passage set convenience when unlocked and unsnibbed (see '3 in 1' above).

Create your own look and style with our G series

Our G series is the perfect fusion of innovative engineering, eye-catching design and durability. The G series is technically superior yet still accessible – an ideal upgrade for customers looking for quality, everyday door hardware with an edge.

Trilock series

'3 in 1' locking – ideal for exterior doors

security & innovation

The Gainsborough Trilock Series includes the original Trilock Traditional Series as well as the Trilock Contemporary Series.

The Trilock Contemporary Series features modern escutcheon plate and handle styling, whilst the Trilock Traditional Series is more classically styled, incorporating perimeter design lines on the escutcheon plates and handles.

Products feature the unique Trilock '3 in 1' locking mechanism of lockset, deadbolt and passage

functions all in the one lock. This technology is also the recipient of an Australian Design Mark® for Good Design.

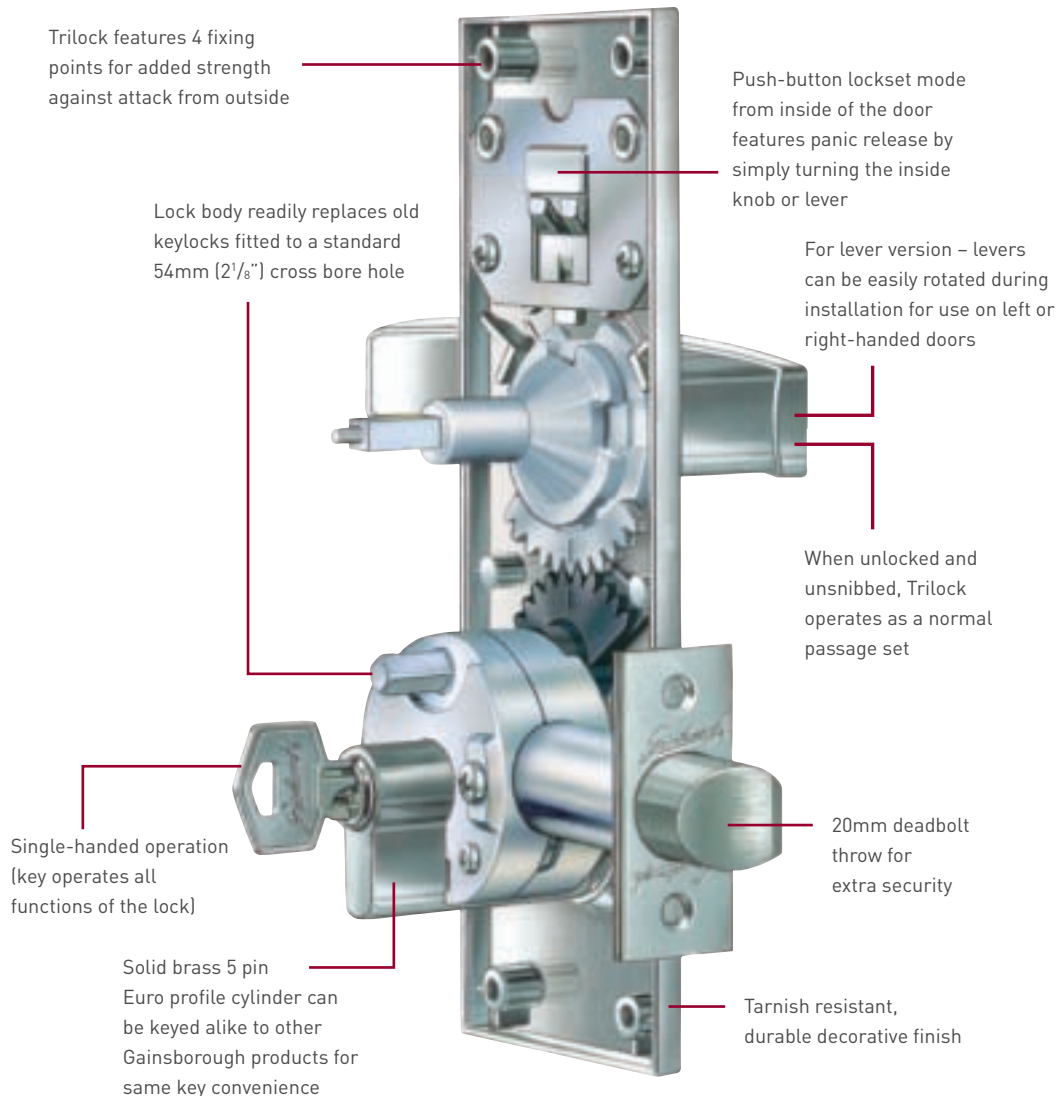

The Trilock Series features world class tarnish resistant finishes, single-handed operation (key can operate all functions of the lock) and a 20mm deadbolt throw for extra security when in the deadbolt mode.

Choose from double cylinder, single cylinder and dummy functions, as detailed in this section.

Features of the Trilock Series

- 60mm Backset • Suits doors 33-45mm thick

Australian Design Mark

The Trilock '3 in 1' Locking mechanism has been awarded with an Australian Design Mark® for Good Design by Standards Australia.

The Gainsborough Trilock Contemporary Series combines the latest in door hardware design with the Trilock '3 in 1' locking technology.

High escutcheon plates create greater visual impact and presence on the door and feature convex styling, aesthetic design grooves and

contoured cylinder surrounds. The rectangular push-button on the inside escutcheon plate further contributes to the modern feel.

The concealed fixing enhancement on the external escutcheon plate provides a smooth and modern look.

Available in knob or lever versions, the Trilock Traditional Series combines timeless styling, advanced engineering principles and tarnish resistant, durable decorative finishes.

Featuring the unique '3 in 1' Trilock technology of lockset, deadbolt and passage functions all combined into the one set, the Trilock Traditional Series offers the option of elegant perimeter design lines on the escutcheon plates and handles, adding class and appeal to the exterior doors of today's homes.

Extended Strike Plate to suit Trilock Series

An extended strike plate is now available to facilitate the installation of Trilock Contemporary or Trilock Traditional on a pivot door.

knob & lever locksets & deadbolts

ideal for exterior doors*

security for your home

* Locksets also available to suit interior doors – see details within.

Gainsborough offers an impressive range of knob and lever lockset designs, single and double cylinder deadbolts, combination entry sets and trim plates to complement the home.

Each knob or lever lockset design from the Stronghold or Contractor Series is available in entrance, privacy, passage and dummy functions to coordinate the exterior and interior doors throughout the home.

Stronghold and Contractor Series include matching single and double cylinder deadbolts for additional

security. Deadbolts can be combined with entrance sets and matching trim plates for a stylish and secure result.

The Stronghold Series Combination Entry Sets provide the perfect solution for a stunning entrance.

Products are available in a range of durable, tarnish resistant finishes.

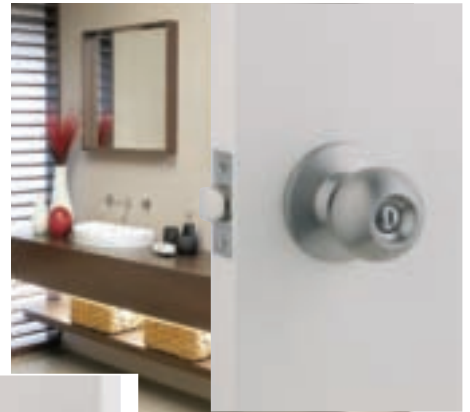

Stronghold Series – Locksets

Stronghold locksets are available in entrance, passage and privacy functions as well as matching dummy knobs, and can be specified in a range of finishes.

Combination entrance lock and deadbolt sets are also available, keyed alike.

* Where listed, LB (Lifetime Brass) is guaranteed against tarnishing during the normal life of the product.

mortice locks & pull handles

ideal for exterior doors

extra home security

A range of mortice locks are available to combine with Gainsborough door furniture products. The 755 mortice lock offer the convenience of both latchbolt and deadbolt functions in the one lock. The latchbolt is operated by the selected door hardware and the deadbolt by either key or turn-button, depending on the function specified. Choose between single cylinder and double cylinder versions. The 755 Series latchbolt can also be operated by a key for the convenience of one-handed entry.

The 775 Series roller bolt mortice lock (double cylinder) incorporates both roller bolt operation and key operated deadbolt, and is an ideal product for use in conjunction with pull handles such as the popular Gainsborough Architectural 600mm Stainless Steel Pull Handles.

The 760 mortice lock encompasses a butterfly claw action deadbolt to suit sliding doors.

Accessories, including rebate kits, are shown with the relevant mortice lock series for your convenience.

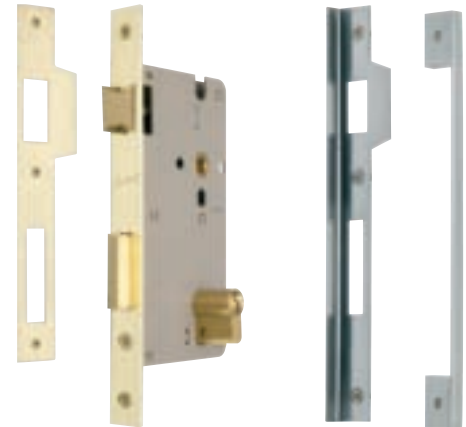

755 Series Mortice Lock

Choose from 50mm and 60mm backsets.

Features a spring-latch and double throw 20mm deadbolt for added security.

security & patio door locks

ideal for exterior security and sliding patio doors

family protection

The Gainsborough range includes a selection of security products to suit sliding patio doors and hinged or sliding security screen doors.

The highly functional Yarra Series sliding patio door locks are designed for glass sliding patio doors and are available in either single or double cylinder versions.

Security screen door products include the hinged security door deadlock and the sliding security deadlocks.

A pneumatic door closer is also available for use in conjunction with the hinged security door deadlocks.

The stylish Gainsborough patio bolt is also featured in this section, and is designed to provide secure auxiliary locking on sliding or hinged aluminium or timber doors.

The security and patio door lock range includes popular finishes and colours to complement the relevant door concerned.

The Gainsborough Home Collection incorporates a range of knobs to complement interior doors throughout the home.

The Gainsborough Classic Series offers White and Warm White knobs with Satin Chrome and Bright Chrome backplate options.

For privacy locking, add a 309 privacy adaptor to a passage set from the above series. The 309 privacy adaptor provides inside locking, auto egress from inside and emergency access from outside.

The Classic Series is available in passage, wardrobe, cupboard and dummy functions.

classic knob series

Classic Series

Our elegant Classic Series provides the ultimate timeless look available in two finishes with Bright Goldtone, Bright Chrome and Satin Chrome backplates.

sliding cavity door sets

ideal for interior sliding cavity doors

style & function in one

Gainsborough offers a range of sliding cavity door sets and accessories to complement interior sliding cavity doors throughout the home.

The stylish and innovative square and circular sliding cavity door sets are offered in privacy, passage and connecting (circular only) sets to suit a variety of door applications. Privacy sets are locked or unlocked with turn-button from inside and feature emergency access from outside - ideal for bathroom/ensuite doors. Connecting sets are locked or unlocked with turn-button from either

side to suit connecting doors between rooms in the home. Passage sets are ideal for use where no locking is required.

The original and economical rectangular sliding cavity door locks remain an alternative option in both passage and privacy functions.

Attractive metallic finishes are offered in each series, as detailed within.

Square and Circular Sliding Cavity Door Sets

Gainsborough offers the circular and square sliding cavity door sets in privacy, passage and connecting (circular only) functions. All products suit a 54mm diameter hole through the door face for quick and easy installation.

The privacy and connecting locks also feature a hinged pull-tab on the faceplate which can be raised to pull door closed from within cavity. All sets suit doors 32mm–45mm thick.

385 Square or 395 Circular Privacy Lock

Lock or unlock with turn-button from inside; emergency release from outside. Ideal for bathroom/ensuite doors.

386 Square or 396 Circular Passage Set

Non-locking for general passage operation.

weatherseals

seals and weatherstrips for doors and windows

all year protection

Gainsborough offers a fine selection of quality door seals and weatherstrips to cater for a variety of applications.

The Gainsborough door seal range includes a selection of products designed for either exterior or interior door applications or both. Choose from Rolling, Brush, Automatic, Storm and Rubber door seal versions.

The Gainsborough weatherstrip range is ideal for surrounding doors and windows and includes Foam, Rubber and Pile varieties.

Door Seals

Rolling

GS1 is recommended for interior doors. Suits hinged, inward opening, single or double doors. Protects against draughts, cold, heat and dust. Fits doors 800mm to 915mm wide. To suit gaps up to 19mm. Rollers for smooth action. Easy to fit with fixing brackets provided. Available in grey.

Brush

GS2 is recommended for interior and exterior doors. Suits hinged, inward or outward opening, single or double doors. Also suits sliding doors and security/screen doors. Protects against draughts, cold, heat, dust and insects. Fits doors up to 915mm wide. To suit gaps up to 19mm. Hard wearing polypropylene brush. Available in gold, bronze and silver.

Automatic

GS3 is recommended for exterior doors. Suits hinged, inward opening, single doors. Protects against draughts, cold, heat, dust and insects. To suit gaps up to 16mm. Automatically lifts as door is opened to clear carpet and seals on door closure. Aluminium construction, durable rubber. Choose from 915mm or 1220mm lengths in gold, bronze and silver finishes.

Storm

Recommended for exterior doors, the GS4 Stormproof weatherseal suits hinged inward or outward opening, single or double doors and protects against draughts, cold, heat, dust, noise, rain and insects. Features 2 piece aluminium construction and durable rubber for tight sealing. 915mm length available in gold, bronze, silver and mill finishes. 825mm and 1750mm lengths are available in mill, bronze and gold finishes.

Rubber

GS5 is recommended for interior and exterior doors. Suits hinged, inward or outward opening, single or double doors. Ideal for hinged security/screen doors. Protects against draughts, cold, heat, dust and insects. Fits doors up to 915mm wide. To suit gaps up to 12mm. Aluminium construction, durable rubber. Available in gold, bronze and silver.

Weatherstrips – Self Adhesive

Foam

GS20 foam is recommended for door and window surrounds. Suits hinged doors and windows. Protects against draughts, cold, heat, dust, noise and insects. Length 5 metres. Suits gaps 1mm-5mm. Available in white or brown.

GS20

Rubber

Recommended for door and window surrounds. Suits hinged doors and windows. Ozone and U.V light resistant. Protects against draughts, cold, heat, dust, noise, rain, insects and rodents. Choose from GS30 ('P' version) for gaps 3mm-5mm; and GS31 ('E' version) for gaps 1.5mm-3mm. Both versions are 5 metres in length (2 x 2.5m strips), and are available in white or brown.

GS30, 31, 40

Pile

GS40 Pile is recommended for door and window surrounds. Suits hinged doors and sliding doors. Also suits hinged windows and sash windows. Protects against draughts, cold, heat, dust and insects. Length: 5 metres. Suits gaps 1mm-3mm. Available in brown.

bathroom accessories

designed for today's bathrooms

Handing

Some of our door furniture products are handed.

To assist you with identifying the required handing, please refer to this simple diagram for an explanation.

Note: For selection of left or right-handed 757 rebate kits, please refer to the handing information diagram shown on page 19. For selection of left or right-handed extended strike plates to suit the 775 series roller bolt mortice lock, please refer to the handing diagram shown on page 20.

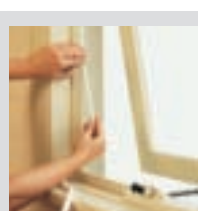

General Information

Safety Notice: For double cylinder function, we recommend that you do not keylock from the inside of the door when occupants are inside. If you choose to do so, ensure key is readily accessible and operable by all persons who may need to exit the building in an emergency. Ensure occupants know how to operate lock and keys to gain immediate exit.

choosing the right products for your home

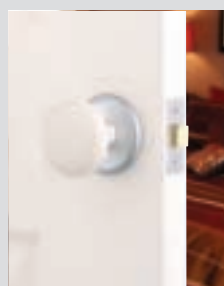

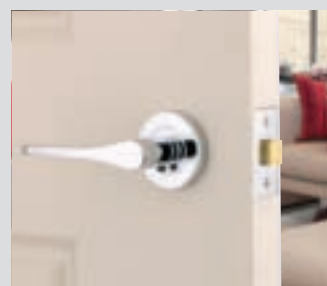

Gainsborough offers a broad range of products to suit applications throughout the home.

The following shows a house plan, and serves to indicate the Gainsborough products available to suit the relevant door or window in the home. Page numbers are also shown adjacent to the products concerned, in order to provide you with an easy to find reference guide.
