WHY YOU SHOULD CHOOSE BIG RIVER HOOP PINE PLYWOOD

REAL AUSTRALIAN TIMBER *with real benefits*

- A native Australian species found in SE Queensland and Northern NSW that has been popular with Australian architects and designers for decades. It is typically specified in wall and ceiling linings and high end cabinetry and joinery.
- Manufactured in Grafton, NSW by the Big River Group in accordance with AS/NZS 2271 using 'Chain Of Custody' certified Australian plantation Hoop Pine logs.
- The Big River Hoop Pine Plywood is manufactured using a B Bond adhesive in 2400x1200 sheet sizes: Grades – AA, AB, AC, BB, and BC
Thicknesses - 6.5mm, 9.5mm, 12.5mm, 16.0mm, 18.5mm, and up to 25mm.
- Custom manufacturing for commercial projects is also available on request (including sheet size, thickness, A Bond adhesive, and perforations).
- Stock availability and delivery through the Big River nationwide distribution network.
- Backed by the experience and expertise of the Big River Group. Big River began in the early 1900s as a family owned timber business. Today, it has advanced and established a position as a major Australian building materials distributor, supplying an extensive range of high quality timber, builders hardware, building supplies and services for the residential, commercial, industrial, building and construction industries.
