BIG RIVER

ROOF TRUSSES

PREFABRICATED TIMBER ROOF TRUSSES

Built for strength. Designed for efficiency.

Our prefabricated timber roof trusses are engineered to the highest standards, delivering precision, strength, and intricate design solutions for every project.

Each truss layout comes with laminated plans and QR codes, giving you instant access to the truss installation guide - ensuring clarity, accuracy, and confidence on-site.

Key Benefits

- Engineered to industry standards
- Faster, easier installation
- Reduced labour costs and build time
- Cost-effective without compromising quality
- In house technical team for designing and supporting on site trades.

Accelerate your construction process with roof trusses designed for performance and reliability.
